

Cat Gwyn is one of those rare photographers that the inner circle of Hollywood film and music celebrities gravitate toward working with. Word travels fast in the tightly knit celebrity community and Cat Gwyn is one of their photographers of choice. After 20 years of shooting people, places and things, Cat has a gut feeling on how to elicit that sometimes intangible essence of personality that is communicated visually.

Cat has shot such notable celebrities as; Sting, Donny & Marie Osmond, Sheryl Crow, Lisa Ling, Keanu Reeves, the Olsen sisters and Flavor Flav just to name a few as well as shooting for MTV, VH1 HBO, ABC and other major networks to round out her portfolio and skill set.

Having studied at Otis/Parsons Art Institute, and subsequently with Mary Ellen Mark, William Wegman and other notable key portrait photographers, Cat has refined her technical and professional skills as a portrait photographer and Eurodent Lab is fortunate to have her working as our celebrity photographer.
